# TeqTron

## Products and Services

**TeqTron** is a solutions company committed to our customer's long term business growth and success.

**Technical 'resource-deployment strategy** identifies which resources may lead to sustainable competitive advantage and how these resources may be successfully deployed. Some of the commonly used strategies are:

- **Captive use**, on premises, long term engagement
- **Resource sharing** with TEQTRON as needed / short term
- **Support services**, working from TEQTRON offices and support the customers on their requirements.
